CARE INSTRUCTIONS

- Check surroundings before moving to avoid collision.
- Secure the user with the safety belt before operation.
- Inspect tracks, wheels and controls before each use.
- Do not exceed the maximum safe working load.
- Operate slowly and steadily when climbing or descending stairs.
- Ensure sufficient space when passing through doors and landings.
- Keep hands, clothing and loose items away from moving parts.
- Ensure the battery is adequately charged before use. Avoid full discharge.
- Use the emergency stop or manual lowering only during power failure or emergencies.
- The stairs climbing function should be operated by a trained caregiver only.

Check out our full range of transfer aids. Review your environment and consider how tasks, such as transferring someone, are performed before deciding.
