CARE INSTRUCTIONS

- Check surroundings before moving to avoid collision.
- Secure the user with the safety belt before operation.
- Inspect tracks, wheels and controls before each use.
- Do not exceed the maximum safe working load.
- Operate slowly and steadily when climbing or descending stairs.
- Ensure sufficient space when passing through doors and landings.
- Keep hands, clothing and loose items away from moving parts.
- Ensure the battery is adequately charged before use. Avoid full discharge.
- Use the emergency stop or manual lowering only during power failure or emergencies.
- The stairs climbing function should be operated by a trained caregiver only.

Check our our full range of transfer aids. When making comparisons, our best suggestion would be for you to think about your environment and consider how certain task like transferring someone is done before deciding.
